Safety Message

Hurricane Ida

Operational Period: 09/09/2021/ 0800
09/10/2021/ 0800

Major Hazards and Risk:

Working in the Office, Boating, Defensive Driving, Road Washouts, Debris/Landfills/Sampling, Electrical hazards, Security, Fatigue, PPE, Heat

Animals: Be aware of animals and insects displaced by Hurricane Ida.

Boating: Make sure you wear your life vest and mask while in the boat. Verify tie downs, tire pressure, and vault system axle grease/oil check before heading out. Take into account weather conditions.

Working in the Office: Many of us over the next several days will be working in closer proximity to others because of our emergency response. Please read the COVID-19 information provided. Wear your MASK. Use hand sanitizer or wash your hands with soap and water when appropriate. Maintain social distancing of 6 feet when possible.

Defensive Driving - Be alert. Drive with extreme caution. Be aware of service people working in the parishes while driving roads and highways. Always assume that a down power line is hot.

Debris/ Landfills/ Sampling: Wear Appropriate PPE to address the hazard issues while entering and exiting debris fields. Examples of PPE are safety vests, inserts, hard hats, safety glasses, gloves if needed, and hearing protection around grinders. Be aware of hollow spaces in debris fields. Remember you can get lacerations from tree trimming.

Fatigue: Know your limitations. Watch your buddy. He/She are just as busy as you are. Accidents happen when personnel are fatigued and their thoughts processes are muddled. When you are tired and rushing to finish a job, is when a lot of trips, slips, and falls occur.

Hydrate/Heat: Remember to drink plenty of fluids. Bring something to drink since many facilities have suffered damage and are not open or are without power at this time. Take breaks as appropriate.

Mosquitoes: WEAR INSECT REPELLANT.

PPE: Personal protective equipment is the first line of defense against injury or potential exposures. All field work requires the minimum of Level D protection. Incorporate your facial mask as appropriate. Have hand sanitizer.

Temperatures: Ok, it cooling down some this week with lower humidity but you still need drink fluids to keep from dehydrating.

Weather Forecast: New Orleans, LA area

The Hazard you observe today, may be the very warning your coworker needs to save their life or limb tomorrow.

Call or email all noted hazards into the safety officer at the end of your shift.

“Safety is not something you just do now and then but let shadow your decisions in making the right ones?”

Before leaving the office, determine if you need to carry fluids for drinking and food for lunch/snacks. These items might not be available where you are going because of storm damage and loss of power. Make sure your vehicle is full of gas before heading out to perform your assigned task.
